Control of monitoring

We are fully aware of the fact that a correctly functioning scale is extremely important in production processes as well as in the process of quality control. Luckily, frequent repairs caused by improper operating of a device, reading inaccuracy due to wrongly applied parameters or outdated and incomplete record of scales have become a thing of the past.

Our supervising your scales gives you a lot of benefits:

- reducing losses occurred in a technological process
- validating scale purchases (professional choice of scales)
- rating applicability of the scales in a technological process
- training for employees how to operate scales properly
- proper marking and recording the scales according to quality management systems

Applicable legal basis

Point 7.6 "Control of monitoring and measuring devices" EN ISO 9001

It is beneficial for you to appoint us to supervise your scales because we:

- are a qualified supplier and implement the certified quality management system according to ISO 9001:2000
- have necessary expertise and equipment
- have more than two decades of experience in scales
- guarantee impartial and objective results
- are ready for independent audits conducted by our customers
- advise which scales require legalization and which should be only checked and calibrated
- guarantee significant risk reduction of irregularities during audits
- provide you with post-control reports

Only regular scales checking, according to a company's specific conditions, conducted minimum 2-4 times a year guarantees correct technological processes as well as expected quality of a product.

By regular checking you have a chance to get rid of improperly working scales. This way you will avoid losses and reduce financial risks.

We invite you to start cooperating with us now.

The top mark service

Experience

Our company has been in the business since 1991. Over the years we have gained a lot of experience in selling and servicing electronic scales and balances.

Employees

Due to the fact that we employ highly qualified staff we are able to provide a wide range of specialist services. Moreover, we offer scale supervision and computer solutions individually designed and adjusted to our customers' needs.

Quality

Since 2005 we have had the ISO 9001:2000 certificate issued by TUV.

Flexibility

Because we cooperate with the world's leading scale-makers we are able to provide you with complex servicing.

Legalisation

As the only company in the whole region of Wielkopolska (in the west of Poland) we have our own legislation point for after-repair scales and balances.

Safety

Our customers are offered technical support and replacement scales for repair times.

Promptness

Our own legalization point, up-to-date equipped service department as well as a wide range of spare parts make us possible to repair your scales promptly and professionally.

Calibration

Our measuring laboratory operates under ISO 17025.

We calibrate the following types:

- ✦ analytical balances
- ✦ precision balances
- ✦ industrial scales
- ✦ tank scales

We guarantee objective and accurate measurement reading and short time of providing services.

Legalization

As the only company in the Wielkopolska region we have our own legislation point for used scales.

In our premises we legalize the following types of scales:

- ✦ laboratory balances
- ✦ balances for pharmacy
- ✦ medical scales
- ✦ platform scales
- ✦ pallet scales
- ✦ retail scales

For the time of legalization procedures we offer replacement scales. We guarantee short periods of time for providing our services.

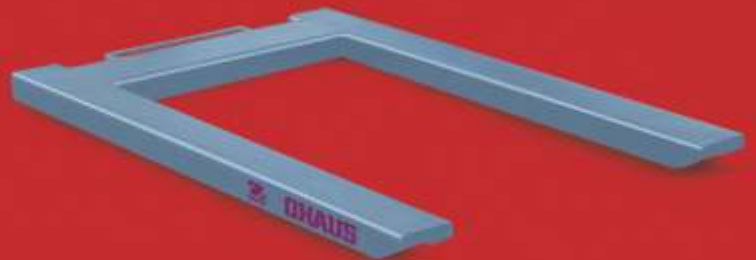

Scales rental

We offer a large number of electronic balances and scales for rent. They are designed to help you with the following issues:

- ✦ periodical inventories
- ✦ delivery controlling
- ✦ control of technological processes
- ✦ periodic sales
- ✦ etc.

You can use our:

- ✦ counting scales,
- ✦ precise scales,
- ✦ pallet scales.
